Forecast For Highland & Eilean Siar
Issued by Met Office Aberdeen
at 0400 on Monday 12 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Most humid, sunny, showery. Far north cloudy with coastal mist.

Today:
For most warm, humid with strong sunshine, which builds showers into the afternoon, bringing risk of thunderstorms, particularly across the hills. Always cloudier across the far north with some mistiness, mainly around Lewis and northern coasts of the mainland. Maximum temperature 23 deg C (73 deg F).

Tonight:
Some heavy showers early evening, dying out before midnight. Far north cloudy with some light patchy rain, mainly focused around Caithness coasts. Winds light and variable. Minimum temperature 8 deg C (46 deg F).

Tuesday:
A warm, sunny and dry day for most, with afternoon showers lighter and more isolated than off late. Far north dull again with some patchy light rain. Maximum temperature 22 deg C (72 deg F).

Outlook for Wednesday to Friday:
Hebrides, also western, northern mainland rather cloudy with some patchy rain. Northern end of the Great Glen dry with bright and sunny spells and feeling warm in the light winds.
